**Course Description:** Rain and heavy thunderstorms stalled over northeastern Ohio Saturday and Sunday with periods of heavy rain up to an 1" an hour reported in some areas. The race course dodged all rain on Saturday and remained dusty dry for the 350+ in attendance for the open riding session and kids races. Mother Nature's relentless attacks were more than the mighty Manatoc totems could handle and they let their defenses down Saturday evening and Sunday morning as they were unable to dodge the heavy clouds and multiple downpours left the entire race course once again...very undesirable. Prior years rain has left for slip and slide race conditions due to the nature of the hard pack trails, this year conditions were very similar. The temperature was 75ish degrees and humid, cloud cover 90% of the race.
