RESULTS

Course Description: Scattered rain Saturday evening resulted in slightly slick race conditions. Although the course was bone dry, dusty and thirsty as a sponge all week, many of the trails were hard pack with a slight slick layer on the surface for the 10:30 beginner race. The descents and accents in some areas combined with the roots & rocks proved to be a challenge. The temperature was 75-85 degrees and humid, with abundant sunshine.

ss = Single Speed

** Staggered starts subtract minutes from finish times.
