

THE BIG VALLEY RACE at Camp Manatoc

Presented by Solon Bicycle

2006 Official - Race Results 8-27-06

[email questions or disputes to Big Valley Race Director by 9/05/06](#)

Course Description: Rain and heavy thunderstorms Sunday morning and throughout the day made the entire racecourse...undesirable. Prior years rain has left for slip and slide race conditions due to the nature of the hard pack trails, this year conditions were taken to another level, with multiple attacks by mother nature, the single track was left defenseless and sublimated under the multiple onslaughts of rain. The temperature was 75-85 degrees and humid, cloud cover 85% of the race. Good times if you like to race on edge and have your bike disappear from beneath you for no apparent reason! Next year the farmer's almanac is calling for sunny conditions...we can't possibly have another wet race in August...can we?
